CATALOGUE

# WELCOME

Welcome to our latest product catalogue v17. We are very excited about this catalogue due to the exciting upgrades to our complete range of recorders and cameras.

Compression and smart codecs continue to be the buzz words in the video surveillance industry. Many of our IP recorders and cameras now support H.265 and H.265E (enhanced) smart codec, which reduces bandwidth and HDD consumption by up to 90%. These compression standards have become very important due to the ever increasing resolution in IP cameras. H.264E smart codec is now standard across all our recorders and IP cameras with the exception of the Wave range.

We are particularly excited about our ULTRA-2s range of 8MP (4K) cameras due to their exceptional performance and affordability. Combine these with our latest H265E recorders, makes bandwidth and hard drive consumption no longer an issue.

Our BNC (coax) technology continues to improve at pace with WAVE-5x and FUSION-5x now supporting HDCVI, HDTVI, AHD and analogue CVBS on the BNC channels, making these recorders extremely versatile for current and future applications. All our BNC Recorders have improved IP handling capacity, with most models supporting cameras up to 5MP. We have also increased the IP recording bandwidth as well as the amount of IP channel capacity.

We have introduced Smart Functionality into selected "FUSION" BNC recorders, such as tripwire, intrusion detection and facial detection. We have also increased the resolution on the "FUSION-6s" and "GENESIS-4s" to 4MP.

Low Light Colour Surveillance continues to be in high demand and we are delighted to introduce our "SIRIUS" low light technology in selected cameras. All cameras with SIRIUS built in are easily identified by our new "SIRIUS" icon, as documented on page 21. Our camera line up has also been extensively upgraded with many new features and to help you navigate these improvement, we have key feature icons highlighting important key features.

On behalf of everyone at IC Realtime, I thank you for your continued support.

Paul McKenny  
CEO IC Realtime EMEA

# PROJECT PACKAGE

We at IC Realtime are proud to announce the Project Package programme. This programme will ensure that we continue to be the professional integrators choice when it comes to large video surveillance projects.

## SYSTEM BUILD

We build every recorder to exacting standards to meet the demanding environments in which they operate. We can pre-configure every camera if required thus saving valuable deployment time. We stringently test every camera before dispatch to ensure that you receive the highest quality product every time.

## TRAINING

We can train all of your installers to ensure a smooth and cost effective installation.

## ON-SITE COMMISSIONING

We offer on-site commissioning assistance to ensure that the system is configured for optimum storage and quality performance.

## SALES

Our experienced staff are on hand to assist you with system design to satisfy your clients' technical and financial needs. We are ready to demonstrate our product and feature set either in-house or at any location you wish. Our new state of the art showrooms will persuade any client of our professional capabilities. We also have excellent mobile demonstration facilities available for off-site demonstrations that will help you seal the deal.

## AFTER SALES

Our experienced technical support staff are on hand to assist with any issues that may arise. We pride ourselves on the quality of this support, that is why our average waiting call time is a staggering five seconds. We offer one year advanced replacement on all project packages and of course you are covered by our industry leading five year warranty.

## FINANCIAL SUPPORT

We have an attractive finance package in place to assist you with the financial management of a large product which includes attractive discounts and extended credit terms.

5 YEAR WARRANTY, 5 REASONS

5  
YEAR  
WARRANTY

5 REASONS

IN-HOUSE PRODUCTION • QUALITY CONTROL •

TECH SUPPORT • R&D • FACTORY INSPECTIONS •

## 1. | RESEARCH & DESIGN

Our Research and Design department work tirelessly to ensure that IC Realtime supply the highest quality product with the latest innovative technology

## 2. | FACTORY INSPECTIONS

Our inspectors oversee every part of the manufacturing process to ensure the highest possible standards are maintained

## 3. | IN-HOUSE PRODUCTION

Every IC Realtime recorder is carefully built in-house to exacting standards

## 4. | QUALITY CONTROL

We independently test and quality check our products to ensure you receive a quality product every time

## 5. | FREE TECH SUPPORT

Our tech support team are always on hand to assist you with any technical related issue

# RECORDER OVERVIEW

## wave

WAVE is our range of entry level 5 x technology recorders. Available in 4/8/16 channel variations all recorders support all of today's common BNC HD formats such as HDCVI, HDTVI & AHD as well as being backwards compatible with analogue CVBS cameras. Resolution support on BNC cameras is up to 1080N and IP resolution support is up to 5MP.

## Fusion

FUSION is our range of commercial specification 4-32 channel BNC recorders. FUSION-5x series supports all of today's common BNC HD formats such as HDCVI, HDTVI and AHD as well as being backwards compatible with Analogue CVBS cameras. Resolution support on BNC cameras is up to 1080P and IP resolution support is 5MP as standard. FUSION-6s is the choice for 4MP HD over coax applications. Select any of our 4MP GENESIS-4s cameras to see the next step in HD over coax solutions.

## BREEZE

BREEZE is our range of Plug and Play IP NVRs which incorporate internal PoE switches to make IP camera integration quick and easy. BREEZE technology removes IP address setup by automatically configuring IP cameras with unique IP addresses in less than two minutes from boot up.

## SIROCCO

SIROCCO is our commercial range of IP NVR. SIROCCO-5s-464 is a powerful 64 channel NVR with support for up to 12MP resolution and 320Mbps of recording bandwidth. Housed in a 1.5U rack mountable case it has internal capacity for up to four HDDs, two 1GB LAN Ports and 2 x HDMI Video Outputs.

## STORM

STORM is our enterprise class range of NVR's. RAID HDD Management, 12MP Resolution, H.265 Compression and 384Mbps Recording bandwidth is now as standard.

# CAMERA OVERVIEW

## GENESIS

Our commercial and cost effective HD over coax camera range.

## NEXGEN

Our professional HD over coax camera range with premium feature sets.

## OPTIC

Our cost effective, yet powerful IP camera range.

## Zenon

Our professional range of IP cameras

## QUANTUM

Our premium rated analytical/ANPR/low light IP camera range.

## ULTRA

Our High resolution 8MP - 12MP IP camera range.

## KEY FEATURES

---

### **4 IN 1 TECHNOLOGY CAMERA**

Check out our "GENESIS-3s" BNC camera range, the 1 x BNC Output can change the output video signal to HDCVI (Default), HD-TVI, AHD or CVBS (Analogue).

### **4MP**

Check out our "GENESIS-4s" range of 4MP resolution HDCVI cameras, 4MP is now possible and available today for BNC / coax solutions.

### **8MP (4K) RESOLUTION**

We are pleased to introduce our new highly competitive "ULTRA-2s" range of IP cameras which have 8MP (4K) resolution and support H.265 video compression.

### **12MP RESOLUTION**

12MP is our highest available resolution available today on selected cameras and offers stunning quality for the most demanding of applications.

### **SIRIUS LOW LIGHT**

Typically using a much larger sensor than standard HD cameras, SIRIUS cameras are designed for maximum light gathering capabilities. Check out page 21 for more information.

### **AUTO TRACKING**

On selected IP PTZs we offer auto tracking technology which tracks objects in the image. Ideal for PTZs in large areas or where the PTZ is working independently and without a security guard.

### **LASER NIGHT VISION**

Laser IR is a new form of viewing in zero light situations, where normal 850nm IR can achieve up to 150m in 0 Lux, Laser IR can see up to 500m in 0 Lux making them ideal for large areas where night time monitoring is important.

### **BUILT IN MICROPHONE**

We now have a selection of HDCVI and IP cameras that incorporate discreet microphones.

### **FISHEYE**

Our one lens Fisheye panoramic cameras offer 180 degree viewing via a super wide angle fixed lens. De-warp of the fisheye image can be done via web interface, SIROCCO-5s, STORM-3s, Smart ICRSS and ICRSS player.

*"...a whole new level of performance for night vision surveillance technology".*

Look out for the SIRIUS icon on selected cameras. SIRIUS cameras represent a whole new level of performance for night vision surveillance technology. Typically using a much larger sensor than standard IP cameras, SIRIUS cameras are designed for maximum light gathering capability. These cameras will remain in colour mode much longer than standard low light and IR cameras and can produce a usable colour image in the darkest of conditions. These cameras use infrared illumination more efficiently to deliver a brighter and clearer image without night-time flickering and noise. All SIRIUS cameras also feature 120dB WDR functions for demanding lighting conditions during the day.

IP based cameras which feature SIRIUS can deliver 50fps video and include our Intelligent Video Analytics (IVS) system, which incorporates functions such as tripwire, intrusion, and scene change detection. They are the ideal cameras for 24/7 remote monitoring purposes. When your application requires you to battle against the darkness, the new IC Realtime SIRIUS cameras are the best choice.

BRACKET

IC Realtime are pleased to announce our QUANTUM ANPR IP cameras.

They capture numbers plates at speeds of up to 50kmh/32mph both during the day and at night using built in IR LED's.

Both cameras can operate independently and store overview snapshots as well as plate cut outs to internal SD storage (cards not included) or be supported via our STORM-3s and SIROCCO-5s range of NVRs.

Both of these cameras have been specially built for ANPR applications which result in extremely accurate and fast capture of number plates.

## COMING SOON

Based on the same camera technology inside our QUANTUM-2s cameras we are pleased to introduce NEMA-4x rated Stainless Steel Products into our range.

Made from 316L Stainless Steel these cameras are ideally suited for various applications such as:

- Coastal Areas
- Chemical Plants
- Other Severe Environments

# BRACKETS

## BRACKETS

We have simplified our bracket selection into groupings for each housing type. Match the letter listed under the camera specification tables with the letter listed here for the range of brackets available for that particular camera.

A

Junction Box

BASE-134-W (White Base)  
BASE-134-B (Black Base)

Pole Mount

BASE-B50 (Recommended) + MNT-PM152

B

Junction Box

BASE-135-W

Pole Mount

BASE-B50 (Recommended) + MNT-PM152

Tip: If you require a black finish on the BASE-135, please choose the BASE-134-B, it has the same dimensions and mounting pattern when the cover is removed. Cover can be removed and discarded easily by unscrewing the three top screws.

C

Junction Box

BASE-B40

Pole Mount

BASE-B40 + MNT-PM152

D

Junction Box

BASE-139-W or BASE-139-B

Wall Mount

MNT-204-W

Pole Mount

MNT-204-W + MNT-PM152

E

Junction Box

BASE-135-W

Wall Mount

MNT-WM200W

Pole Mount

MNT-WM200W + MNT-PM15

Tip: If you require a black finish on the BASE-135 please choose the BASE-134-B, it has the same dimensions and mounting pattern when the cover is removed. Cover can be removed and discarded easily by unscrewing the three top screws.

F

Junction Box

BASE-136-W

Pole Mount

MNT-203-W

Pole Mount

MNT-203-W + MNT-PM152

G

Junction Box

BASE-137-W (Black Base)  
BASE-137-B (Black Base)

Wall Mount

MNT-203-W

Pole Mount

MNT-203-W + MNT-PM152

In-Ceiling

MNT-200C

H

Junction Box

BASE-138-W

Wall Mount

PLA-101-W + MNT-302-W

Pole Mount

PLA-101-W + MNT-302-W +  
MNT-PM152

Ceiling Mount

PLA-101-W + MNT-CM3

I

Junction Box

BASE-132-W

Wall Mount

PLA-100-W + MNT-302-W

Pole Mount

PLA-100-W + MNT-302-W +  
MNT-PM152

Ceiling Mount

PLA-100-W + MNT-CM3

Half Swan Neck (Pole Top)

ALTRON-AW1699H-PEL

Full Swan Neck (Pole Top)

ALTRON-AW1699F-PEL

\*Note: All these PTZs come supplied with Wall Bracket & Power Supply

# ALTRON BRACKETS

As an Altron distributor, we offer the full range of Altron products.

## WHY CHOOSE ALTRON?

Manufactured in the UK, Altron has been responsible for many firsts in the bracket and tower industry. Altron have a wide range of standard off-the-shelf products, and the experience can provide custom solutions for nearly any environment.

The Altron range includes:

- Cabinet based poles
- Omate poles and brackets
- Specialist transport based towers
- Cabinets
- Brackets and other accessories

## COMMON SECURITY FEATURES

All Altron products are designed specifically for CCTV camera mounting. The following security features are incorporated as standard, onto all Altron products:

- Secure locks as standard, cannot be picked or driven through
- Flush, close fitting doors to resist lever attacks
- Internal padlock facility on tilt-down products
- Winches are demountable and are removed when product is not being operated, therefore products are tamper proof
- Camera cables routed internally

A close-up, artistic photograph of a mechanical component, possibly a speaker or a lens, with a teal overlay. The text "DISPLAY SOLUTIONS" is centered in white.

DISPLAY SOLUTIONS

# PHILLIPS Q-LINE

## COMMERCIAL RATED MONITORS BACKED UP WITH A 3 YEAR DE-INSTALL/RE-INSTALL ON-SITE WARRANTY!

Deliver startlingly clear images in a more eco-friendly way with the Q-line displays. High on performance and reliability, yet low on power consumption, it is ideal for projects where no compromise is accepted.

### OPTIMISED FOR PUBLIC VIEWING

- Full HD LED technology for brilliant images

### MAXIMIZING THE IMPACT OF YOUR MESSAGE

- Manage and control your displays remotely via SmartControl

### INNOVATIVE SOLUTIONS FOR ANY SIGNAGE APPLICATION

- Free and easy-to-use content management with SmartCMS
- Connect and control your content via the cloud with HTML5
- Schedule what you want, when you want with SmartPlayer
- Connect your display and start sharing with DLNA

### CARE ABOUT YOU, YOUR BUSINESS AND YOUR AUDIENCE

- SmartPower for energy saving

# 16 CHANNEL SPOT MONITOR SOLUTION

## STREAM-2s-016

The STREAMBOX is an innovative and extremely cost effective solution for the provision of spot monitor applications in IP, Analogue and HDCVI CCTV installations. It is the perfect solution over the traditional use of expensive, service intensive and often bulky PC solutions or the use of limited function single input decoders.

The STREAMBOX runs completely independent to the recorder or VMS environment. Setup and maintenance is done via the local on screen interface using the supplied wireless USB mouse or the web management interface.

STREAMBOX performance offers 16 channel ONVIF / RTSP streaming with direct driver support for other camera manufacturers. It is compact in size and measures only 190 x 155 x 45mm (W x D x H); the appliance can be installed discretely behind public display monitors or above ceiling tiles.

The STREAMBOX runs HDMI, VGA & BNC video outputs allowing for connectivity to all types of monitors. This ensures effective cost management where existing screens can be utilised when migrating from Analogue to IP or HDCVI technologies. The STREAMBOX is compatible with all current IC Realtime recorders and IP cameras and also has support for many of our past product range.

**16 IP**

16 IP Channel Support

16mp Resolution

128Mbps Bandwidth Transmission

Embedded Linux OS

**H.264**

H.264 / MPEG-4 Compression

PTZ Control

Alarm I/O Support

Compact Design

Wireless Mouse Included

**ONVIF**

Support for ONVIF Protocol

Wall Mountable

# VERSATILE & EASY TO USE KEYBOARD

## IC-CONSOLE-5X

The IC-CONSOLE-5X is a multiple interface keyboard controller designed for use with the IC Realtime range of recorders and our complete range of PTZ cameras. Interface options include RJ-45 (Network), RS-232, RS-485, RS-422 and USB.

All data and telemetry configuration connectivity are now on board as standard. The ergonomic footprint will integrate tidily into the most concise security podium.

### MAIN FEATURES

- Keyboard console to control:
  - IC Realtime stand-alone recorders (RS-232 or Network)
  - IC Realtime PTZs (RS-485)
  - IC Realtime IP PTZs (Network) - Smart ICRSS (USB)
- RJ-45 (Network), RS-232, RS-485, RS-422 & USB connections
- 3D joystick control of PTZ functions
- Present, scan, pan, tour & pattern controls
- Built in LCD display

# WIRELESS

IC Realtime is pleased to introduce the MML342LV wireless Point to Point kit, this is an excellent solution if you require cameras at remote locations but have no way of cabling to the locations. Suited for Point to Point or Point to Multi-Point installations it is the ideal alternative for sites where wired connection is either impossible, costly or impractical.

## PLUG AND PLAY WIRELESS KIT

1 x 5GHz Pre-Configured Access Point/Host  
1 x 5GHz Pre-Configured Station/Client  
2 x 24v PSUs  
Mounting brackets

Part Number: MML342LV-KIT

## SINGLE UNIT

1 x 5GHz Un-Configured Unit, can be configured as either Host or Client  
1 x 24v PSU  
Mounting brackets

Part Number: MML342LV

## KEY FEATURES:

- IEEE 802.11a/n compliant
- 5GHz up to 26dBm aggregate transmit power
- Data rates of up to 300Mbps
- Wireless transmission up to 4km (direct line of sight)
- Antenna alignment site survey – LEDs/Buzzer
- Cost effective and high performance solution for LoS and nLoS
- Connecting multiple buildings together via PtP or PtMP
- Network management with web browser, SNMP V2c or Telnet / Secure Shell(SSH)
- IP Feature provides NAT, DDNS and DHCP
- Weatherproof Casing
- The camera sends data over a network cable (through a switch if there are multiple cameras attached) to the Station
- The station transfers that data in to a Wi-Fi signal and beams it to the access point at the DVR/NVR location
- The access point converts the data received over Wi-Fi in to a wired network signal and sends it to your router
- The router then routes the data to your DVR/NVR

# HOW IT WORKS:

- PC or MAC Laptop
- Android Tablet
- iPhone or Android Phone
- iPad
- Windows Phone Tablet

## SD CARDS

SD cards in IP cameras work perfectly with ANR (Automatic Network Replenishment) technology on NVRs. When there is a network disconnection between NVR and IP camera, the NVR can tell the IP camera to store the video on the SD card and then automatically retrieve the video back to the NVR when the network recovers. SD cards are also recommend for our ANPR cameras as it allows storage of plate snapshots and plates logs directly in the camera.

## UNINTERRUPTIBLE POWER SUPPLY

- Automatic Voltage Regulation circuit (AVR)
- Output socket for blackout protection
- Reduced weight and dimensions
- Low noisiness
- Easy installation
- USB port
- UPS Management Software: TecnoManager

UPS-FGCE-RALED852

Nominal power: 850VA

UPS-FGCE-RALED1102

Nominal power: 1100VA

UPS-FGCE-RALED2002

Nominal power: 2000VA

- On-Line double conversion technology without transformer (VFI-SS-111)
- Rectifier realized by IGBT technology
- Active PFC circuit (0.99)
- Compatible with generators
- ECO MODE operation
- Frequency converter operation
- Output voltage and frequency can be regulated from the front panel
- Static bypass
- USB and RS232 ports
- UPS management software: TecnoManager
- 24 months warranty (after registration on [www.tecnaware.com](http://www.tecnaware.com))

UPS-FGCEVDP-1203MM

Nominal power: 1200VA

UPS-FGCEVDP-2403MM

Nominal power: 12400VA

UPS-FGCEVDP-3603MM

Nominal power: 13600VA

- Convertible format (rack 19" or tower) with adjustable display
- On-Line Double Conversion Technology without transformer (VFI-SS-111)
- Rectifier realized by IGBT technology
- Active PFC Circuit (0.99)
- Compatible with Generators
- EPO (Emergency Power Off)
- ECO MODE operation
- Output voltage and frequency can be set from the front panel
- Static bypass
- RS232 e USB communication ports
- Intelligent slot for SNMP or Dry Contact card
- Telephone/modem protection by RJ11/RJ45 plug
- 24 months warranty (after registration on [www.tecnaware.com](http://www.tecnaware.com))

UPS-FGCEVD-1303MMRT

Nominal power: 1300VA

UPS-FGCEVD-2603MMRT

Nominal power: 12600VA

UPS-FGCEVD-4003MMRT

Nominal power: 14000VA

egrated Mount Tester

# MULTI-FUNCTIONAL TEST MONITOR

## IC-TM4

The IC-TM4 is a camera tester that spans three major surveillance technologies: IP, HDCVI and CVBS Analogue.

This tester has PoE for camera power without the need of an injector or PoE switch. It can display full camera statistics such as signal link quality, PoE voltage/amperage, and two-way data kilobyte flow. Instantly see and measure the real-time performance of your IP cameras without the need for a laptop; it also allows you to login and access all camera configuration parameters and change them instantly.

In addition to the extensive IP assessment tools, the tester comes with CAT5 analysis and will display any short along the cable. It will also show you the length of the run in meters, and whether the short is at the close or far end. It allows installers to easily examine Analogue and HDCVI cameras, and have total PTZ control via its built-in controller. Video and pictures can be saved to its internal memory with the push of a button.

### MAIN FEATURES

- IPS screen and QWERTY flip keyboard with forty five keys
- Supports IP configuration via Onvif protocol
- Supports HDCVI/Analogue self-adaptive access
- Supports 8 x digital zoom
- Supports audio and RS485 control
- TDR cable detection and network connection test
- Video screen shot, video recording and playback
- Support POE/DC12V longer power supply
- Dual LED flashlight

## POE ACCESSORIES

### IC-IPEXT100

- PoE extender
- For use with PoE switch or PoE midspan (IC-IPMS100)
- Extend the PoE distance by 100m
- Cascade 2 x IC-IPEXT100 with PoE switch/midspan to achieve up to 300m PoE distance
- 1 x 10/100m PoE port input
- 1 x 10/100m PoE output port for IP camera and 1 x 10/100m output port for next IC-IPEXT100 extender

### IC-IPMS100

This product is ideal when you need to power a PoE IP camera and don't have a PoE switch in place

- 1 Port PoE (Up to 60W) midspan device
- Wall mountable

## HD OVER COAX ACCESSORIES

### ICH-HVC100

- 16 x BNC inputs / 32 BNC outputs, each BNC input has two BNC outputs
- BNC's work with HDCVI, HDTV, AHD & CVBS
- Supports the following HDCVI video formats: 720p/25, 720p/30, 720p/50, 720p/60, 1080p/25, 1080p/30
- Enterprise level metal design (19" 1U)

### ICH-HVC100

- HDCVI converter, convert a HDCVI signal into HDMI, VGA, CVBS (BNC) and HDCVI (BNC)
- All video outputs work simultaneously
- Video, power and data indicators
- Compact design allowing for discreet mounting

### IC-BAL-16HD-V

The IC-BAL-16HD-V is a 16 Channel Passive (non-amplified) video hub that makes installation of HD-CVI, HD-TVI, AHD or analogue CVBS cameras professional at the recorder end as it removes the need for single camera baluns.

The IC-BAL-16HD-V is supplied with 16 x single channel passive baluns making this the ideal solution for the installation of 16 cameras over CAT 5/6.

It supports screw terminals, or RJ45 connectors on the hub side, and is capable of receiving sixteen video feeds via four UTP cables when using RJ45 on the hub end.

### IC-BAL-IHD-V

Set of HD video baluns for use with HDCVI / HDTV / AHD and analogue cameras

- The IC-BAL-1HD-V is a single channel passive (non-amplified) video balun for use with HD-CVI, HD-TVI, AHD and CVBS analogue cameras.
- The IC-BAL-1HD-V can transmit up to 300m (720P) and up to 200m (1080P) when using HD-CVI camera and recorder.

### IC-BAL-1HD-VP

Set of video and power baluns for use with HDCVI/HDTV/AHD and analogue cameras

- The IC-BAL-1HD-VP is a single channel passive (non-amplified) video and power balun for use with HD-CVI, HD-TVI, AHD and CVBS analogue cameras.

NOTE: We recommend consulting with the full product PDF for power distance transmission.

### IC-HDV-1

HDCVI Video Isolator

- Solution to solving image interference caused by ground loops
- Can be installed indoors or in junction box
- -20~55° Working Temperature

### IC-POC-1

Power over coax devices for HDCVI/HDTV/AHD/CVBS cameras

- Inputted voltage of 24 ~ 36 vDC on recorder side can provide 12vDC (9W Max) of power on camera side of cabling
- 400m transmission distance (Max)
- One coax can transmit 1 channel of HD video and 1 channel of DC power

### UTC-1

- Controller for changing video formats on GENESIS-3s cameras
- Indicator Lights to check current video format on camera

## CAMERA ENCLOSURES

ICR-H2	(12v / 24v Dual Voltage Heater)
IC-H2-230V	(230v Heater)
ICR-H2-POE	(Built in PoE)

### MAIN FEATURES

- Cable Managed Box Camera Housing
- Side Opening for easy install and maintenance
- IP67 Weatherproof
- 3 Year Anti-Corrosion Warranty
- Compatible with all IC Realtime box cameras
- External Dimensions without Bracket: Depth 405mm x Width 130mm x Height 150mm

### OPTIONAL BRACKETS FOR ICR-H2 HOUSING RANGE

ICR-H2CM	Corner Mount
ICR-H2PM	Pole Mount
ICR-H2-EXTARM	450mm Extension Arm

## RECORDER ENCLOSURES

LOCKABLE RECORDER ENCLOSURE  
ENCL-LARGE

External Dimensions:	Depth 540mm x Width 510mm x Height 124mm

Internal Dimensions:	Depth 560mm x Width 506mm x Height 160mm
Weight:	9.6kg

## MONITOR BRACKETS

---

28032R

200 x 200 (Max) VESA Monitor Bracket with tilt and swivel actions.

28034R

200 x 200 (Max) VESA Monitor Bracket with Single Arm Support.

28036R

200 x 200 (Max) VESA Monitor Bracket Dual Arm Support.

## EXTENDERS

---

HDX60P

HDMI Extension up to 60m over a single CAT5e/6/7 cable, supports up to 1080P Resolution.

USB-50MEXT

Passive Plug and Play USB Extension Balun, up to 50m distance.

VGA-2-CVBS

VGA to CVBS Converter for converting VGA outputs on recorders to Analogue for BNC type monitors or pre-existing coax cable going to monitors.

NOTE: Powered by USB and you may require USB power plug (depending on what recorder you have). The Female Phono plug can be converted to BNC by using "CON-FBNC-MRCA".

## LENSES

---

IC-L2712-3MP

3MP Rated 2.7-12mm Vari-Focal lens for Box CCD Cameras.

IC-L550-3MP

3MP Rated 2.7-12mm Vari-Focal lens for Box CCD Cameras.

## WIFI

USB Wi-Fi Dongle for Recorders.

Prior to purchasing please ask our support team if USB Wi-Fi is supported on the recorder firmware.

## MICROPHONES AND RACK TRAY

### Omni-Directional, High Fidelity Ceiling or Wall Mountable Microphone

- 5-100m<sup>2</sup> Coverable Area
- -45 ~ -15dB Adjustable Sensitivity
- ALC (Automatic Level Control), DSP, AGC
- Easy Install
- Works with any camera or recorder with Audio Input (Mic has RCA Male Connection)
- 12vDC (50~100mA) Power Requirements
- -30°C+70° operating temperature
- ø78mm x 26mm Size / 73g Weight

### Omni-Directional, High Fidelity Pinhole Microphone

- 5-40m<sup>2</sup> Coverable Area
- -45 ~ -20dB Adjustable Sensitivity
- ALC (Automatic Level Control)
- Easy Install
- Works with any camera or recorder with Audio Input (Microphone has a RCA Male Connection)
- 12vDC (50~100mA) Power Requirements
- -30°C+70° Operating Temperature
- 63 x 30 x 22mm Size / 34g Weight

### Rack Mountable Tray for desktop based recorders

- Compatible with all 1U 260mm, 325mm and 375mm recorders
- 482.6mm (Wide) x 281.2mm (Depth) x 43.7mm (High)
- Commercial cold rolled steel quality (SPCC)

# ICRSS SMART

FREE

### LIVE VIEWING

- Operate 4 fully customised windows simultaneously
- View up to 64 live view streams simultaneously
- Fisheye Dewarp supported on live streams
- Virtual PTZ control by mouse supported
- Instant snapshot, live record, audio listen, audio talk and digital zoom available on each live view window
- Quickly save tours when in live viewing mode
- 4K cameras supported
- H.265 stream support

### PLAYBACK

- Playback up to 36 synchronous cameras
- Search by time or event via the intuitive timeline of events
- Instant playback available when in live view mode
- Playback multiple stream types
- Fisheye Dewarp available when in playback
- Download recordings as well as easily review backed up local recordings

### OTHER

- Digital maps supported, upload site drawings and find cameras easily with the built in map feature
- Automated alarm responses for events such as motion, camera masking, video loss, HDD errors or alarm inputs
- Account management incorporated for easy management of users
- Device configuration supported, easily configure camera settings from live view as well as configuration of the complete device
- Software log that stores all user's activities.
- Status log that tracks device health

### DEVICES

- 256 devices supported
- 2000 video channels supported
- All IC Realtime IP Devices are supported via this one platform
- Auto Search of LAN devices for easy adding of devices.
- Import and Export also supported for easy maintenance

Performance of the Smart ICRSS is dependent on the PC / Mac Specification and bandwidth available on the network

## PHONE & TABLET APPS

IC View is the FREE user friendly version of our ICRSS Pro application for IC Realtime networked devices:

4 Window Live Viewing

Full PTZ Control

icDDNS Service

P2P Service

Live Audio Supported

Free Support

ICRSS Pro is the premium application for IC Realtime networked devices. ICRSS Pro has the following features:

Stream up to 16 windows

Playback on 16 windows

Instant Playback from live

Video Clips and Snapshots

E-Map

PTZ Control

Bi-Directional Audio Supported

Push Notifications

P2P Service

Free Support

\*Streaming performance of IC VIEW & ICRSS Pro is dependent on the device and bandwidth available
